CREATING PREMIER
OPPORTUNITIES FOR THE
STUDENTS OF SALTSBURG'S
SCHOOLS.**

Our Mission...

The mission of the Saltsburg Schools Foundation is to engage business and community partners in support of the Saltsburg Schools and to enhance the experiences of students, teachers, and the community by serving as a catalyst and a funding source for new ideas, programs, and educational opportunities.

School foundations exist in Pennsylvania and across the country to supplement public school budgets and to strengthen the partnership between schools and their communities. Ultimately, this public-private partnership produces a better product in our most important investment: our students.

Funds generated by SSF will be dedicated to creating unique opportunities for us to invest in our students, creating a better future.

Giving to SSF...

There are many different reasons for giving...

- *To help local young people with educational programs.
- *To support & strengthen the community.
- * To honor or memorialize a loved one.
- *To address estate & tax issues.

WHO WE ARE...

The Saltsburg Schools Foundation is a newly created foundation that seeks to further expand the opportunities for innovation and excellence in all facets of learning for the Saltsburg Schools . SSF will help to finance educational and extracurricular projects, the expansion of programming, innovative educational projects and activities, academic support programs and student scholarships.

SSF looks to achieve these goals by seeking donations from individuals and business or corporate partners, along with hosting fundraising events in the community. SSF is governed by a Board of Directors made up of current teachers and administrators, past graduates and local business men and women - many of whom are parents of current or past students.

HOW AN EDUCATION FOUNDATION IMPACTS STUDENTS IN OUR SCHOOLS.

BY THE NUMBERS...

What research tells us about school foundations...

- *Foundations vary in size depending on school and location. Nationally, they contribute about 3% of an average school's budget.**
- *We're just joining the national trend. Some Foundations date to the 1980's. Currently in the US, there are over 4,800 school foundations.**
- *In Pennsylvania, over half of all schools have a foundation - 312 to be exact, which is 63% of all schools. All have a common goal of supporting community education.**

WHY CREATE A FOUNDATION?

The Saltsburg Schools have a rich history of benefiting from the successes of alumni, families, local businesses and friends of the schools. Some of our more notable families have already established scholarships in memory of loved ones or made significant contributions to help fund booster programs that help our band, arts programs and athletics programs.

SO, WHY CREATE A FOUNDATION?

THE ANSWER: IMPACT.

- * The impact of donations to the foundation will be extensive and far reaching.
- * The foundation will support all Saltsburg Schools students in grades PreK-12 and is not limited to any specific program or activity.
- * The foundation aims to help the school advance any curriculum area, as well as extracurriculars including after school programs, athletics, arts, and initiatives focused on student health and well-being.
- *The impact of donations is immediate. The foundation, only just incorporated in July, is already committed to funding a project that will redesign the Elementary Library. We look forward to partnering with Inventionland on project design and completion.
